SUMMARY

Software Engineer with experience in full-stack development using MERN, Django, and Next.js. Built and deployed production systems including ERP/POS platforms, web applications, and games. Skilled in backend development, API design, databases, authentication, payment integration (Stripe), Docker, and AWS deployments.

EXPERIENCE

MERN Stack Developer — Devvibe

Jan 2026 – Present

- Developed features for a multi-tenant POS/ERP system (sales, inventory, accounting, purchasing)
- Built React frontend with Node.js/Express backend using PostgreSQL and Prisma
- Worked on FBR/PRA tax compliance, invoicing, and business workflows
- Designed inventory system (barcode scanning, batch/expiry tracking, multi-uom)
- Built accounting modules (chart of accounts, journal entries, automated postings)
- Improved system scalability and performance through refactoring and optimization

Freelance Developer

- Integrated Firebase (Auth, Firestore, Cloud Functions) for backend services
 - Migrated mobile app to web using React + Laravel backend
 - Integrated Stripe payments for secure transaction processing
-

PROJECTS

Patient Management System (Next.js + Django)

GitHub: <https://github.com/muhammadsaleh14/patientManagement>

- Built backend system for managing patient records, visits, and prescriptions
- Designed APIs and database schema using Prisma and SQLite

Grid Puzzle Game (Godot)

GitHub: <https://github.com/muhammadsaleh14/GridPuzzleGameGodot>

- Built memory-based puzzle game with procedural grid generation
 - Implemented game state logic and randomized patterns
-

SKILLS

Frontend: React, Next.js, Redux, Tailwind **Backend:** Node.js, Express, Django, Laravel **Databases:** PostgreSQL, SQLite, Firestore **DevOps:** Docker, AWS **Tools:** Git, Firebase, Stripe **Languages:** JavaScript, TypeScript, Python, C#, SQL

EDUCATION

BS Software Engineering — NUST (2021–2025) CGPA: 3.25

A Levels (2019–2021) Physics, Mathematics, Chemistry (A*, A, A)
